

MEHUL KUMAR SAHU

Full Stack Developer

Utai, Chhattisgarh, India

Phone: 9770989610 Email: mehulkumars315@gmail.com

Portfolio: mehul.site GitHub: github.com/mehul-vi LinkedIn: linkedin.com/in/mehul-kumar-sahu

Summary

Full Stack Developer with hands-on experience building responsive web applications and RESTful APIs using React.js, Node.js, Express.js, and MongoDB. Strong foundation in HTML, CSS, and JavaScript, with experience in API integration, JWT authentication, CRUD operations, database management, and Git/GitHub. Also interested in Generative AI and RAG, with a focus on exploring AI-powered applications and modern development practices. Passionate about building scalable applications and continuously learning new technologies.

Technical Skills

Languages: JavaScript, Java, C, C++

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap, React Hooks, Context API, Responsive Web Design, API Integration

Backend & APIs: Node.js, Express.js, RESTful APIs, JWT Authentication, Authentication & Authorization, Middleware, MVC Architecture, Socket.IO

Databases: MongoDB, PostgreSQL

AI & GenAI: OpenAI API, Gemini API, LangChain, RAG, LLM Integration, Prompt Engineering

Tools: Git, GitHub, Docker, Postman, NPM, VS Code

Education

Bachelor of Technology (B.Tech) – Computer Science 2022 – 2026
Chhatrapati Shivaji Institute of Technology, Durg

Senior Secondary (Class 12) 2021 – 2022
Government Higher Secondary School, Utai

Secondary (Class 10) 2019 – 2020
Government Higher Secondary School, Utai

Training & Internship

MERN Stack Development – B S Digital Technology May 2025

- Developed an E-Commerce web application using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT authentication, REST APIs, and CRUD operations for application features.
- Tested and debugged REST APIs using Postman to improve reliability.

Full Stack Development – Zager Digital Services Aug 2024

- Built responsive web pages and reusable UI components using HTML, CSS, JavaScript, and React.js.
- Integrated APIs and implemented client-side form validation for better user experience.
- Collaborated on feature development and fixed issues under guidance from senior developers.

Projects

LUMEN – AI Finance Tracker Live Link

- Developed a full-stack AI-powered finance tracking application using React.js, Node.js, Express.js, and MongoDB.
- Integrated AI capabilities to provide personalized financial insights and intelligent expense analysis.
- Implemented secure JWT-based authentication and RESTful APIs for user and expense management.
- Built an interactive analytics dashboard for expense tracking, visualization, and financial insights.

CodeGen – AI Component Generator Live Link

- Built an AI-powered UI component generator using React.js, Tailwind CSS, and Gemini API.
- Implemented prompt-based component generation with real-time preview and editable code output.
- Added code export functionality to help developers quickly generate reusable UI components.
