SUMMARY

Full Stack Developer skilled in MERN stack development, REST API development, and scalable web applications using React.js, Node.js, Express.js, MongoDB, JavaScript, and Python. Experienced in JWT authentication, database management, AI integration, Generative AI, LLM applications, and OpenAI/Gemini API integration for production-ready applications.

EXPERIENCE

BS DIGITAL TECHNOLOGY | MERN STACK DEVELOPMENT INTERN
May 2025 -- June 2025 | India

- Enhanced full stack E-Commerce web application using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT authentication and RESTful APIs for secure user authentication and data management.
- Built CRUD functionalities and backend services using Express.js and MongoDB database integration.
- Performed API testing, debugging, and endpoint validation using Postman to improve application reliability.

ZAGER DIGITAL SERVICES | FULL STACK DEVELOPMENT INTERN
Aug 2024 -- Sep 2024 | India

- Fine-tuned responsive web applications using React.js and Tailwind CSS, improving cross-device compatibility and optimizing user interface performance.
- Collaborated on frontend development, backend API integration, and feature implementation.
- Optimized frontend performance and application responsiveness across multiple devices and screen sizes.
- Worked with REST APIs and modern web development workflows for scalable application development.

PROJECTS

**LUMEN -- FINANCE TRACKER | MERN STACK + OCR + AI
INTEGRATION**

Live Project

Enhanced finance tracking application with dashboard analytics, OCR-based receipt scanning, and expense management using MERN stack, Python OCR libraries, JWT authentication, and MongoDB.

AI CODE REVIEWER | MERN STACK + PYTHON + OPENAI API
Live Project

Built AI-powered code review platform using React.js, Node.js, MongoDB, and Python with OpenAI API integration, JWT authentication, and scalable REST APIs for computerized code analysis workflows.

**GENUI -- AI COMPONENT GENERATOR | REACT.JS + TAILWIND CSS
+ GEMINI API**

Live Project

Improved AI-powered UI component generator with real-time preview and code export functionality using React.js, Tailwind CSS, and Gemini API integration.
